POWERWALL INSTALLATION NOTE: LOCKING ENABLE SWITCH

Overview

As of November 2, 2022, Powerwall 2 is now being produced with a lockable Enable (On/Off) switch as shown below. At this time there is no impact on installation procedure or Powerwall technical specifications.

Figure 1: Locking mechanism in open, unlocked position

Figure 2: Locking mechanism in closed position, a lock can be placed on the hasp if desired

NOTE: The Enable switch can only be locked in the OFF position.

The following part numbers have been updated to reflect this change.

Old Part Number	New Part Number
3012170-04-C	3012170-04-E
3012170-05-C	3012170-05-E
3012170-14-C	3012170-14-E
